### **“One Fine Tapestry A Carole King Tribute”**

Please join us as we enjoy a tribute to one of the true legends in pop music. Carole King has made history with her milestone album, “Tapestry,” and with the multitude of timeless classics she wrote for so many musicians of the '60's and '70's. In this special presentation, Gerard and Diane Barros perform several of Carole's own hits, as well as a selection of chart toppers that she composed for many other performers such as the Drifters, Beatles, Monkees and James Taylor..
